

Champalimaud Foundation

Lisbon, 29th of May, 2012

Dear Colleague,

I am writing to let you know of a neuroscience symposium that will take place in Lisbon, Portugal on September 30 to October 3, 2012.

The Champalimaud Neuroscience Symposium will bring together researchers from around the world who are interested in solving the puzzle of the brain. The Programme includes 21 distinguished speakers, poster sessions, and other events. The invited speakers reflect the broad interests of the Champalimaud Neuroscience Programme and cover a broad range of areas within neuroscience.

The Symposium will take place at the Champalimaud Centre for the Unknown on the waterfront in central Lisbon, Portugal. We are looking forward to a lively and stimulating scientific meeting, and we hope that you will join us. I would be grateful if you could bring the symposium to the attention of prospective participants and am enclosing a poster that would be suitable for posting. Further information can be found at <http://symposium.neuro.fchampalimaud.org/>.

Many thanks in advance for your help.

Best wishes,

Marta Moita
